

eJOURNALS

THOUGHT-LEADERSHIP POSITIONING AND GENERATING LEADS

Chemical Processing has partnered with two leading organizations in the respective fields of safety and powder handling to create two thought leading, targeted eJournals.

- MKO Process Safety eJournal
- Bulk Solids Innovation Center eJournal

MKO Process Safety eJournal

In partnership with the Mary Kay O'Connor Process Safety Center, *Chemical Processing* has created the MKO Process Safety eJournal dedicated to improving process safety and helping to make safety second nature in the chemical industry. This unique publication will feature problem solving content, best practices and other practical information designed to address process safety challenges and improve process safety globally.

2022 Publication dates: March 3, June 2 and September 1

Bulk Solids Innovation Center eJournal

In partnership with the Bulk Solids Innovation Center, *Chemical Processing* has created the Bulk Solids Innovation Center eJournal dedicated to educating powder and bulk solids handling decision makers about the latest information in solving powder and bulk solids handling issues. This unique publication will feature how-to articles, case histories, latest industry developments and new product information designed to address powder and bulk handling challenges in the chemical industry.

2022 Publication dates: April 7 and October 6
