

## SPECIAL REPORTS

Similar to our Technology Report Series, our exclusive Special Reports bring together the latest content on a particular process automation topic in a unique, downloadable report. What's different about the Special Report is that the topic is determined in collaboration with a single, exclusive sponsor. Depending on the topic, a Special Report consists of approximately 10-15 pages of content from the *Control* archives as well as a full page advertisement from the sponsor. The editors will also accept appropriate editorial content from our exclusive sponsor.

We'll post the Special Report on a special resource page on ControlGlobal.com and promote it to our 26,000-strong email database of readers. Sponsors should expect to receive 150 global leads in a two-month period. Sponsorship pricing is \$7,647 gross (\$6,500 net).

Optionally, if you as sponsor would like for the *Control* editors to also create an original piece of content to lead off the report, sponsorship pricing is \$10,588 (\$9,000 net). The sponsor will also receive ownership of the report and original content to use in further marketing efforts.
